# Jessica Paradise

**Cloud Support Engineer | AWS Certified Solutions Architect & Developer**

Austin, TX · (573) 528-2477 · jessica.paradise@protonmail.com · linkedin.com/in/jessicaparadise · github.com/jessicaparadise · jessicaparadise.com

## SUMMARY

Completed the AWS Solutions Architect and Developer – Associate certifications. Nine years as an airline and jet captain: troubleshooting system failures in real time, working by checklist, and keeping everyone informed under pressure. Pursuing a B.S. in Computer Science at WGU.

## TECHNICAL SKILLS

**Cloud (AWS):** Lambda, API Gateway, DynamoDB, S3, CloudFront, Route 53, IAM, Secrets Manager, serverless
**Networking & Web:** DNS, HTTP/HTTPS, TLS certificates, CDN caching, REST APIs
**Support & Operations:** Linux, troubleshooting and root cause analysis, ITIL 4 incident and change management, runbooks
**Infrastructure as Code & CI/CD:** Terraform, Docker, Git, GitHub Actions
**Languages & Databases:** Python, Java (Spring Boot), JavaScript, SQL (MySQL), Angular

## EXPERIENCE

**AI Supplier-Sourcing Platform (pre-launch)** | Founder & Engineer (part-time) — Austin, TX · 2026 – Present

- Building an AI-powered supplier search: buyers describe exactly what they need and see only suppliers that can do it.
- As sole engineer, built the supplier data pipeline with Firecrawl, scraping supplier websites and structuring results for search.
- Migrating the scraper from a local machine to AWS so it runs on managed infrastructure.
- Centralizing credentials in AWS Secrets Manager as a single source of truth, with IAM access scoped to least privilege.

**Commercial Aviation** | Captain & First Officer — 2017 – 2026

*JNP Aviation · Air Transport International · Solairus Aviation · Flexjet · Horizon Air*

- Captain of single-pilot jets: diagnosed failures in real time, worked them by checklist, and kept ATC and passengers informed.
- Flew Boeing 767/757 heavy jets in a two-pilot crew on international cargo and DoD missions, cross-checking every critical action.
- Managed an aircraft maintenance program and flew post-maintenance check flights to verify repairs before returning it to service.

## PROJECTS

**Serverless Cloud Resume — jessicaparadise.com**

- Configured Route 53 DNS and an HTTPS certificate for a custom domain, serving a static S3 site through CloudFront.
- Built a visitor counter API with API Gateway, Lambda, and DynamoDB.
- Automated deploys with GitHub Actions: every push to main syncs S3 and invalidates the CloudFront cache.

**Vacation Booking REST API — Spring Boot + MySQL**

- Built a REST API connecting an Angular front end to a MySQL database, mapping eight JPA entities to an existing schema.
- Wrote a transactional checkout endpoint that saves an order and all its items together, or not at all.
- Diagnosed and fixed Hibernate 7 upgrade failures, including a retired MySQL dialect and a stale-object error on new carts.

**Landon Hotel — Containerized Spring Boot + Angular App**

- Wrote a multi-stage Dockerfile that builds and runs the full app in a single small container.
- Added multithreading to the Spring Boot back end to serve English and French messages concurrently.

**ESP32 IoT Device — PCBWay-Sponsored Hardware Build** — *In progress*

- Designing a custom ESP32 PCB in KiCad; earned a PCBWay manufacturing sponsorship for the build.

## CERTIFICATIONS

- AWS Certified Solutions Architect – Associate (SAA-C03)
- AWS Certified Developer – Associate (DVA-C02)
- ITIL 4 Foundation
- LPI Linux Essentials
- WGU Micro-Credentials: Java Developer, Back-End Developer
- FAA Airline Transport Pilot (ATP)

## EDUCATION

**B.S., Computer Science** — Western Governors University — Expected Aug 2027
**B.S., Aeronautical Science** — Green River College — 2019
